PRELIMINARY PROGRAM

Dear Colleagues,

I am pleased to invite you to the 1st Oncological Laryngology International Master, which will be held in Vittorio Veneto - Italy.

This is the first English edition of a scientific event that has its foundations in the teachings of a great Italian Surgeon of the past, Italo Serafini, but looks to the future with an International perspective.

The first day, the scientific program will start with an introduction to laryngeal oncological concepts that will focus on the basis of the subject, essential to the laryngologist who wants to improve on the topic.

Every morning of the following days, the program will propose 2D and 3D live surgery sessions: transoral laser microsurgery and open surgery. There, surgeons and attendees can mutually exchange their knowledge.

Every afternoon, expert laryngological surgeons will present Lectures on specific topics and chair Round Tables.

In closing, I am particularly pleased to thank the International Guests, Wojciech Golusinski (Poland), Ricard Simo (UK), and Michael L. Hinni (USA) for their participation.

My gratitude goes to the medical and paramedical staff of Vittorio Veneto Hospital - Otolaryngology Unit, whose contribution has been of crucial importance.

Best regards,

Giuseppe Rizzotto
